(54) **Key top element, push button switch element and method for manufacturing same**

(57) A key top element (20) capable of being manufactured while permitting a design of a display section thereof to be readily modified and corrected, accommodating a variety of data for design formation, and capable of exhibiting increased design properties. The key top element (20) includes a printed sheet (10) constituted by a substrate sheet member (2), an on-demand printed layer (4) and a white- or silver-colored layer (6),

as well as transparent key top members (12) fixedly bonded to the printed sheet (10). The on-demand printed layer (4) is printed in the form of a symbol or the like on the substrate sheet member (2) using an on-demand printing machine. A push button switch element (40) is also disclosed which includes such a key top element (32) and a light-permeable rubber cover base (38) bonded to the key top element (32).

FIG. 2A

**ANNEX TO THE EUROPEAN SEARCH REPORT
ON EUROPEAN PATENT APPLICATION NO.**

EP 99 30 6087

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report. The members are as contained in the European Patent Office EDP file on
The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
